

Luka Gorozia

1 (267) 530-8227 | lg877@drexel.edu | Philadelphia, PA 19104 | www.linkedin.com/in/lukagorozia

Education

Drexel University
Bachelor of Science in Computing and Security Technology

Philadelphia, PA
Anticipated Graduation: June 2028

Professional Experience

Geo Cargo Logistics IT CO-OP

Tbilisi, Georgia. September 2024 - March 2025

- Provided technical support for 40+ users in a mixed Windows/Linux environment, reducing support ticket response time by 25%.
- Performed basic network scanning and vulnerability assessments using tools like Nmap to identify open ports and misconfigurations.
- Assisted with system administration, including software updates, performance monitoring, and routine security checks.
- Created and maintained IT documentation, including system configurations and troubleshooting guides, to support future operations.

Projects

Phish-Net, Phishing Detection Tool

Drexel University, Philadelphia PA
January 2024 - June 2024

- Created a local database in Javascript to store known phishing URLs, URL patterns, and other relevant data for phishing detection.
- Implemented the local database into the Chrome extension, ensuring seamless integration and smooth functionality.
- Contributed to the development of the main algorithm responsible for detecting phishing attempts by analyzing URLs and comparing them to the local database.
- Played a key role in designing the user interface and overall experience of the Chrome extension.

Wireless Network Security Assessment – WPA Handshake Cracking

Personal Research Project, 2025

- Configured a Kali Linux VM with an Alfa AWUS036ACH adapter in monitor mode and used Airodump-ng to scan local wireless networks and filter specific targets.
- Captured WPA/WPA2 handshakes by deauthenticating clients with Aireplay-ng, forcing reconnections to obtain handshake packets.
- Performed brute-force attacks with Aircrack-ng using customized wordlists built from contextual information (e.g., family names, pet names), successfully cracking 7 out of 10 networks.
- Gained hands-on experience in ethical wireless penetration testing, Wi-Fi protocol analysis, and password auditing — conducted under full consent and aligned with responsible disclosure.

Robot-Chef

STEM Association Georgia. Tbilisi, Georgia
March 2021 - November 2021

- Programmed the Arduino board, writing the code to orchestrate the robot's various components and ensure seamless execution of tasks involved in making food.
- Contributed to the physical assembly of the robot, setting up motors, wiring, sensors, and other hardware components.
- Integrated sensors and other input devices to enable remote control of the robot through a dedicated phone app.
- Collaborated with the team in designing and 3D printing custom parts and enclosures for the Robot-Chef.

Skills

- Python
 - NMAP
 - Javascript
 - HTML/CSS
 - WireShark
- Linux CMD
 - Aircrack-ng
 - Arduino Programming
 - Github/Gitlab,Slack
 - Windows, Linux, Mac OS
- Microsoft Office: Word, Excel, PowerPoint, Outlook, Teams
 - Languages: English(Fluent), Russian(Conversational), Georgian(Native)

Honors and Awards

A.J Drexel Scholarship
Finalist - Georgian Scientists and Innovator Competition”Leonardo Da Vinci” 2021
Finalist - Georgian Scientists and Innovator Competition”Leonardo Da Vinci” 2019
Top Speaker - Educational Debates Association of Georgia Competition (2021)

Relevant Coursework
